The management team was very supportive and easy to work with whilst I established my cosmetic clinic. The Hub has a phenomenal newsletter system in place, which is a great way to advertise my clinic and I have received lots of referrals through this.”

- Dr Kiren Kodali

“The onboarding process with the Health Developments Corporation was extremely smooth sailing. As I was moving from Iran, they were able to provide me with a car and accommodation whilst I settled in. Since joining, Health Hub Doctors Morayfield, I have attended many social events, the annual Christmas party is my favourite. I have been able to make great friends through these social events.”
